

iPhone Cases

Keep your smartphone safe from bumps, bruises, drops, and more with our covers.

```
<div class="media">
  <div class="img"></div>
  <div class="content">
    <h5>iPhone Cases</h5>
    <p>Keep your smartphone safe from bumps, bruises, drops, and more with our covers.</p>
  </div>
</div>
```

对齐

添加 `class="tc"` 使文本居中对齐，添加 `class="tr"` 使文本向右对齐

iPhone Cases

Keep your smartphone safe from bumps, bruises, drops, and more with our covers.

Business Cards

Browse all of our office essentials to keep you organized while showing off your individual style.

```
Center:
<div class="media tc">
  ...
</div>

Right:
<div class="media tr">
  ...
</div>
```

水平排列

添加 `class="left"` 使图片向左水平排列，添加 `class="right"` 使图片向右水平排列

iPhone Cases

Keep your smartphone safe from bumps, bruises, drops, and more with our covers.

Business Cards

Browse all of our office essentials to keep you organized while showing off your individual style.

Left:

```
<div class="media left">
  <div class="img"></div>
  <div class="content">
    <h5>iPhone Cases</h5>
    <p>Keep your smartphone safe from bumps, bruises, drops, and more with our covers.</p>
  </div>
</div>
```

Right:

```
<div class="media right">
  ...
</div>
```

响应式复位

通过预定义的 `class="reset-m"`、`class="reset-s"` 来对中、小屏幕作布局调整

例：添加 `class="reset-s"` ，即媒体元素默认为自定义的水平排列，小屏幕时则清除水平排列恢复原状

PC

iPhone Cases

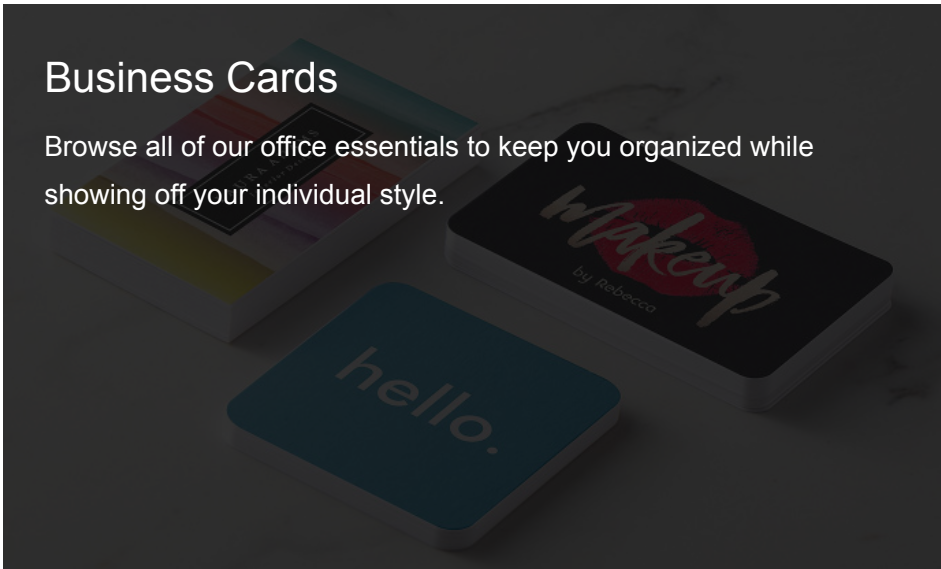

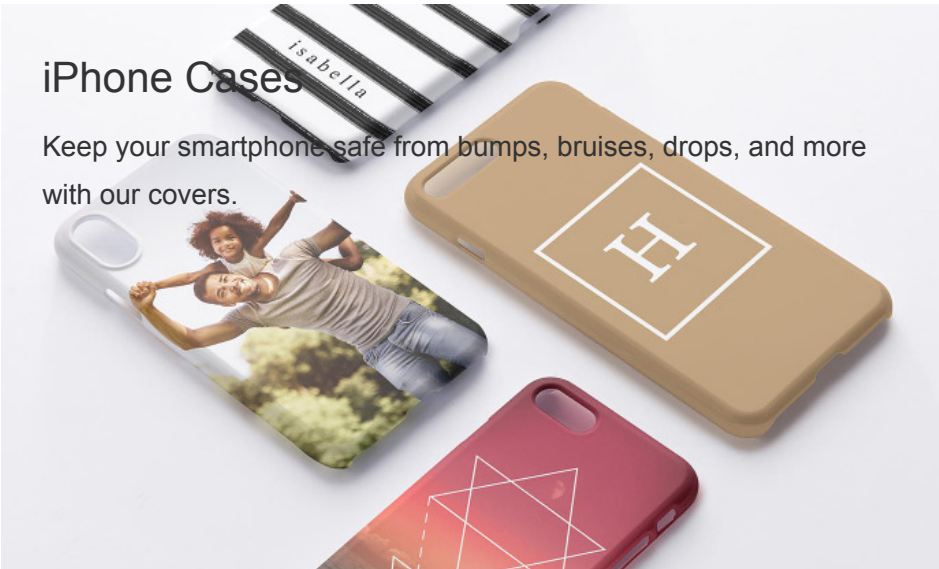

Keep your smartphone safe from bumps, bruises, drops, and more with our covers.

```
<div class="media left reset-s">
  <div class="img"></div>
  <div class="content">
    <h5>iPhone Cases</h5>
    <p>Keep your smartphone safe from bumps, bruises, drops, and more with our covers.</p>
  </div>
</div>

<div class="media left reset-m">
  ...
</div>
```

叠加

添加 `class="overlays"` 转换为叠加模式，添加 `class="darken"` 使图片变暗，需额外定义文本元素的颜色，**注意：叠加模式不能与水平排列共同使用**

```
Default:
<div class="media overlay">
  <div class="img"></div>
  <div class="content">
    <h5>iPhone Cases</h5>
    <p>Keep your smartphone safe from bumps, bruises, drops, and more with our covers.</p>
  </div>
</div>

Darken:
<div class="media overlay darken">
  <div class="img"></div>
  <div class="content">
    <h5 class="c-white">Business Cards</h5>
    <p class="c-white">Browse all of our office essentials to keep you organized while showing off your individual style.</p>
  </div>
</div>
```

圆角

添加 `class="radius"` 转换为圆角效果，包含叠加模式

Business Cards

Browse all of our office essentials to keep you organized while showing off your individual style.

iPhone Cases

Keep your smartphone safe from bumps, bruises, drops, and more with our covers.

Default:

```
<div class="media radius">
  <div class="img"></div>
  <div class="content">
    <h5>iPhone Cases</h5>
    <p>Keep your smartphone safe from bumps, bruises, drops, and more with our covers.</p>
  </div>
</div>
```

Overlay:

```
<div class="media overlay radius">
  ...
</div>
```

滑动放大图片

添加 `class="zoom"` 使图片增加滑动放大效果，包含叠加模式

iPhone Cases

Keep your smartphone safe from bumps, bruises, drops, and more with our covers.

Default:

```
<div class="media zoom">
  <div class="img"></div>
  <div class="content">
    <h5>iPhone Cases</h5>
    <p>Keep your smartphone safe from bumps, bruises, drops, and more with our covers.</p>
  </div>
</div>
```

Overlay:

```
<div class="media overlay zoom">
```

滑动淡入文本

添加 `class="fadein"` 使文本增加滑动淡入效果，可与滑动放大图片效果叠加，**注意：滑动淡入效果仅叠加模式下生效**

Default:

```
<div class="media overlay fadein">
  <div class="img"></div>
  <div class="content">
    <h5>iPhone Cases</h5>
    <p>Keep your smartphone safe from bumps, bruises, drops, and more with our covers.</p>
  </div>
</div>
```

Darken:

```
<div class="media overlay darken fadein">
  <div class="img"></div>
  <div class="content">
    <h5 class="c-white">Business Cards</h5>
    <p class="c-white">Browse all of our office essentials to keep you organized while showing off your individual style.</p>
  </div>
</div>
```
